March 1, 1889.

We hereby certify that we have examined the accounts of the town treasurer and find them correct.

GEORGE H. WIGGIN,
ALBERT L. FLINT,
Auditors.

REPORT OF THE SCHOOL BOARD,

For the Year ending March 1, 1889.

At the school meeting of March, 1888, Chas. B. Beal was elected a member of the board for three years. On March 22nd the board met and organized with N. B. Hull as president, Dr. F. H. Rowe treasurer, C. B. Beal secretary.

The duties of the board were divided the same as last year. Dr. F. H. Rowe visiting Nos. 1, 5, 6, 7 and 9, Mr. Beal Nos. 2, 3, 4, 8 and 10, and each visiting all the schools during the year.

A written examination of all teachers who had not taught in town before was held at the No. 1 schoolhouse April 21. All present passed as required, and all those engaged to teach afterwards were required to take the same examination before entering school.

The same number of schools have been supported, with three terms in each and each having thirty weeks for the year. No. 7 had four weeks extra and No. 5 one week, to make up for time lost last year on account of sickness.

Eighteen different teachers have been employed. Only three have remained in the same school during the year. All the teachers had taught before, none teaching for the first time, and some have had large experience. The changes have been about the same as last year. With two or three exceptions their work has been satisfactory. Miss May E. McLane, who has taught the No. 6 school eight terms, finishes her work there with the winter term. She has been one of our best teachers and we are sorry to lose her services. She has worked for the best interests of her scholars and has been very successful.

During the year there have been three deaths among the school children. Marion Moore, daughter of William W. Moore, (who was unable to attend school two terms); Lewis Corliss son of John Corliss, and Emma Patten, the young daughter of Wm. M. Patten, who commenced to attend

school the fall term and had not been absent a day until taken home from school sick, during the winter term.

Although in some cases there have been obstacles, there has been generally good order maintained and in particular instances the discipline of the school room has been excellent. A teacher has full authority in the school room and the greatest intellectual development will be seen where perfect order is maintained. We have tried to impress upon all teachers its importance. We have had two complaints entered against scholars who saw fit not to obey. In each case they choose to leave school (with the consent of their parents) rather than to remain and do as they should. We do not require our teachers to use corporal punishment upon large scholars. They are old enough to know why they are sent to school and if they persist in disobeying should be expelled, not allowed to remain and thereby injure the school.

We were not satisfied with the work in the No. 1 school during the fall term; Miss Kendrick, the teacher of the winter term, by her energetic work and good discipline has achieved satisfactory results.

It is the aim of your school board to elevate the standard of our schools. To do so there are certain essentials, among which are good teachers, good books and unity of effort. The parents should co-operate with the board and teachers that they may raise the standard and make the schools more useful.

The only education the majority of our children will receive will be that of the common school and we cannot make this instruction too thorough. We would impress upon teachers the importance of being thorough in their work. Scholars should be taught the reasons for different steps they take. The mastery of a principle gives strength and power to the mind. We consider that the schools have improved and are in better condition than one year ago.

Out of the fund appropriated at the last meeting the No. 1 house has been shingled, and new furniture put into No. 2 and other repairs made. The coming year further repairs are needed. The out-buildings at No. 4 should be repaired or new ones erected, also the shed at No. 6. The seats at No. 10 are the worst of any in town; new furniture should be provided and other repairs made. The seats of other school rooms would be much more comfortable for the scholars, if new ones were to take the place of the old.

The whole number of scholars registered are 216. Of

these 108 are boys and 108 are girls, a decrease of 7 from last year. The attendance has been about the same as last year but not what it should be. No. 5, taught by Mary A. Walker, has the best register, having the least number of absent and tardy marks.

It appears from the treasurer's report that the whole amount expended for teachers, fuel, repairs and other necessary expenditures is \$2210.56, an average of \$10.24 per scholar, which is greater than last year for the reason that the whole number of weeks was thirty instead of twenty-nine; also some time has been made up.

The whole amount appropriated by the town, and received from the literary fund, railroad tax and dog money is \$2142.74, amount remaining from last year \$109.60, making \$2252.34 in all, leaving a balance of \$41.78 unexpended. The amount due the board from No. 1, from the district fund for building fires and fuel is \$1.36, making the actual balance \$43.14.

Respectfully submitted.

N. B. HULL,

Respectfully submitted.

FRANK H. ROWE, M. D.,
Treasurer School Board.

Bedford, N. H., March 1, 1889.

This certifies that we have examined the accounts of the treasurer of the school board of this town for the year 1888-89, and find the same correctly cast and properly vouched.

GEO. H. WIGGIN,
ALBERT L. FLINT,
Auditors.
